

Request for our questionnaire on information provided by the VTS Centers

VTS Centers provide information for improving safety and efficiency of navigation by VHF radio, AIS and MF radio broadcast (2,019kHz / English) .

According to the previous survey, the usage rate of MF radio broadcast is quite low.

In light of circumstances, Japan Coast Guard will conduct the following questionnaire for the purpose of determining when MF radio broadcast provided by the VTS Centers discontinue.

We would be grateful, if you could join this survey.

*** This survey should take about 3minutes.**
